Subject: Hacking your genes for ACCELERATED fat burning

Dear [NAME],

I have an honest question.

Would you like to burn off all the extra fat from your body?

While doing it without starving yourself and feeling hungry all the time?

Even better, you don't even need to count calories religiously nor remove your favourite snacks and food from your diet?

If your answer is YES, you're in for a TREAT!

Subject: These foods will melt your fats away

Hi [NAME],

If you have tried losing weight before,

You would have heard that it is about calories in, calories out.

But that is not the entire truth when it comes to losing weight.

You see,

Not all foods and calories are equal.

In fact, when you eat more of **[[THESE POWERFUL FOODS]]**, your body will burn more fats...

Even if you consume more calories than those experts would tell you to.

Subject: Regain your youth and energy!

Hi [NAME],

Have you noticed that as you got older, you seemed to have less energy than before?

It might have happened gradually, but you feel tired more easily, and no longer find yourself having the same levels of energy you had when you were younger.

Well, me too...

At least until I discovered the secrets shared by my friend Scarlett.

With her help, I regained my energy levels.

I feel and look much younger now.

And the best part?

I lost enough weight to fit into my old pair of jeans.

All without having to starve or feel lethargic throughout the day.

Subject: My doctors could not believe the results!

Dear [NAME],

Years ago, I had the metabolic syndrome...

High blood pressure? Check.

High blood sugar? Check.

High cholesterol levels? Check.

My doctor(s). Yes I had more than one... Told me that I was a ticking time bomb.

A walking corpse, waiting for a sudden doomsday.

>> [Until I discovered THESE Life-Changing Secrets...]<<

And he got a shock when the results for my health check up came back.

I was given a clean bill of health.
